SUMMARY

Experienced software developer proficient in Python, JavaScript, TypeScript, and React, with a strong foundation in DevOps. Skilled in building scalable web and real-time applications, with expertise in payment gateway integrations, microservices, and system optimizations.

EXPERIENCE

AI/ML Engineer

Tryzent Technologies   **July 2025 – Present, Remote (Delhi, India)**

· Developed an agentic workflow using **LangGraph** to summarize **Zoom** meetings via the **Zoom Real-Time Messaging System**.
· Built a document extraction pipeline using **LlamaIndex** to assist GST filings by extracting key data from invoices and bank statements.
· Developed an AI tool using **LangGraph** & **LlamaCloud** to analyze resumes against job descriptions and optimize ATS scores.
· Integrated automated PDF editing and a job search feature with location and remote filters.

Founder

Mysty   **February 2025 – June 2025**

· Served a small user base (1M+ users, 100+ orgs) with scalable, high-performance architecture.
· Tech stack used: **discord.py, PostgreSQL, websockets, Tortoise-ORM, Redis, Docker & more.**
· Integrated Discord Oauth2 for user login on web dashboard using **FastAPI, JWT & PostgreSQL**.
· Payment gateways integrated: **Stripe, Oxapay and Paypal.**
· Dashboard built on **Next.js, FastAPI** and **Websockets** with **Webhooks** to receive payments from the payment gateways.
· The project was discontinued due to financial constraints and lack of sustained funding.

Co-Founder

Quotient   **September 2020 – April 2025**

· Served a large user base (10M+ users, 15k+ orgs) with scalable, high-performance architecture.
· Tech stack used: **discord.py, React, FastAPI, PostgreSQL, websockets, Tortoise-ORM & more.**
· Integrated Discord Oauth2 for user login on web dashboard using **FastAPI, JWT & PostgreSQL**.
· Payment gateway integrated: **PayuMoney Payment Gateway**.
· Built an **OCR** and **Image hashing microservice** using **Pytesseract, Imagehash, PIL**, and other technologies. (**handles 100k + hits/month**).
· Project discontinued in April 2025 due to the untimely passing of a core team member.

Founder

Flantic   **March 2021 – March 2023**

· Served a large user base (55M+ users, 200k+ orgs) with scalable, high-performance architecture.
· Tech stack used: **discord.py, PostgreSQL, websockets, Tortoise-ORM & more.**
· Payment gateway integrated: **Razorpay Payment Gateway**.
· Horizontally scaled the bot up to 200k servers using PM2.
· Acquired by Green Bot Development in 2023.

PROJECT

Crypto Payout Bot

October 2024 – October 2024

· A freelance project for a European Twitch streamer client.
· This bot uses Oxapay payment gateway to facilitate crypto transactions.
· It provides live transaction info and wallet balance.
· It handled over 32k$ in payouts and over 500+ paid participants.

HTTP-Interaction Bot Template

September 2023 – September 2023

· A template repository for discord http interactions.

· It can be hosted on server-less architecture like Vercel with no expenses.

· It has custom command handler making use of FastAPI.

· It handles proper authentication logic by verifying the signature through request headers.

· This project is no longer maintained and has been archived due to inactivity.

EDUCATION

Bachelor of Technology in Computer Science (AI & ML)

Maharshi Dayanand University · Haryana · 2026

SKILLS

· Languages: Python, JavaScript, TypeScript, HTML, CSS, SQL.

· Library/Frameworks: React, Next.js, FastAPI, Express, Tortoise-ORM, websockets, discord.py

· AI/LLM Frameworks: LangChain, LlamaIndex, LangGraph, Hugging Face, OpenAI API.

· Database: PostgreSQL, MongoDB.

· DevOps: Sentry, Prometheus, Grafana, Loki, Kubernetes, Jenkins.

· Others: Redis, Nginx, Kafka, Shadcn/ui, TailwindCSS, JWT, Amazon S3, Cloudflare R2.
